

2.5.4 - Does your university as a body prioritise purchase of products from local, sustainable sources?

Evidence 2.5.4.1

Purchase of Products from Local Community

Our university makes sure to buy things from local businesses that are good for the environment. We want to support our community and be eco-friendly. By choosing local and sustainable sources, we help local businesses and reduce the pollution that comes from transporting goods. It's part of our commitment to doing things in a way that's good for the Earth and the people around us.
