

2.5.3 - Does your university as a body provide access to university facilities (e.g. labs, technology, plant stocks) to local farmers and food producers to improve sustainable farming practices?

Evidence 2.5.3.1 : University Provides Access to University Facilities (e.g. labs) to Local Farmers and Food Producers to Improve Sustainable Farming Practices

Our university opens its facilities, such as labs, to local farmers and food producers. This access allows them to enhance and adopt sustainable farming practices. By providing resources and technology, we aim to support their efforts in improving crop yields, soil health, and overall agricultural sustainability. Our commitment is to foster collaboration and empower the local farming community with the tools they need for environmentally friendly and successful farming practices.
